### **Key To Traffic Light System**

The elements of the Traffic Light system being used in the report to highlight significant outturn variances / issues are as follows:-

**Status Column** - indicates, using a colour reference whether an issue is:-

**Red**            **Potentially detrimental** to the finances of the Authority

**Green**        **In line with budget or potentially advantageous** to the finances of the Authority.

**HUMBERSIDE FIRE & RESCUE SERVICE**  
**COMMENTARY ON THE MANAGEMENT ACCOUNTS**  
**For the period 1 April 2019 to 29 February 2020**

The following statements represent a summary of the financial activity of the Service for the period stated above.

Each statement is accompanied with notes, referenced to specific lines on that statement where significant variances have been forecasted or where further explanation of information shown is necessary.

### Revenue Statements

These statements show the actual and committed revenue expenditure, in summary subjective heading format (Table 1) as at 29 February 2020 compared to the profiled 2019/20 budget for the same period. The report also shows the forecasted outturn for the full year based on current levels of income and expenditure and any known variations to the end of the financial year.

**Notes**

1. This underspend is due to a combination of a number of vacant support role posts as well as lower pension contributions due to staff tapering into the 2015 Firefighters Pension Scheme.
2. This projected overspend is primarily due to a higher level of ill health contribution to the Firefighters Pension Fund.
3. This projected overspend is due to additional repairs and maintenance of firefighter kit due to the age, purchase of additional IT equipment and software. In addition to this there is a predicted underspend due to purchasing less smoke alarms.
4. This projected underspend is primarily due to spending less on legal fees than originally anticipated.
5. Additional income due to funding of Road Safety Team from Safer Roads Humber, rental of PPE and plant to HFR Solutions, additional secondments to other government departments and a higher level of return on our investments than anticipated.
6. This projected underspend is due to not taking any additional borrowing during 2019/20.
7. This overspend is due to a higher level of Minimum Revenue Provision (MRP).

## Capital Statement

This report shows the actual and committed capital expenditure as at 29 February 2020 compared with the adjusted profiled 2019/20 budget for the same period. This report also shows the forecasted outturn for the full year based on current levels of expenditure and any known variations to the end of the financial year.

## Notes

1. These Capital schemes will now conclude in 2020/21.
2. Rephasing of the replacement programme has resulted in the reduction of an appliance and two support vehicles during 2019/20.
3. The rollout of replacement PPE will not commence during 2019/20.
4. Some of the spending in relation to the Emergency Services Network project will be spent during 2020/21

## Pensions Account Statement

The Authority has a revised budgeted deficit of £11.271m on this account for 2019/20. The deficit for the year is now projected to be £12.536m. This is a result of:

1. A change in the tax treatment of pensions has caused this variance.
2. A higher level of transfers into the Firefighters Pension Scheme as well as transfers out of the scheme has caused this variance.
3. A higher level of ill health pension contributions has caused this variance
4. Lower contributions due to lower employer contributions rates than anticipated due to people tapering into the 2015 scheme.

The deficit on this account is financed through the Pensions Top-up Grant given by the Home Office, of which 80% of the grant was received in July of this financial year. The Authority has to stand any cash flow losses until the balance of the grant is paid in full in July 2020.
