

Collaboration Survey (1)

Provide details of collaborative projects either planned or that have taken place within your authority.

Please direct any questions to: collaborationsurvey@communities.qsi.gov.uk

Collaboration																	
Project Name	Collaboration Partner (Select from drop-down list)	Collaboration Function (Select from drop-down list, or choose 'Other' and outline in description.)	Project Description (Provide a description of the project)	Maturity of Project (Select from drop-down list)	Maturity of Project - Start Date (When project commenced or is due to commence)	Maturity of Project - Comments	Baseline Budget for Function	Transitional Costs	Non-Pecuniary Benefits (i.e. non-monetary impact on service outcomes, for example, speed of response, improved processes, etc.)	Wider Financial Benefits (where known or estimated, for example reduced health interventions)	Savings First Year	Savings Second Year	Savings Third Year	Savings Fourth Year	Savings Fifth Year	On-Going Yearly Savings	Comments
Shared HR/Occupational Health Services with SYFRS	Fire-Fire	Human Resources	South Yorks FRS providing Senior HR support to HFRS with a view to potentially extending this to a joint HR/OD function. Work has also commenced on the feasibility of a joint provision of Occupational Health services for both FRS's	Planned/Anticipated	01/08/2014	The relationship has been established over time, culminating in joint working before progressing to the consideration of a joint HR and OH solution			Shared OH services may improve Occupation Health for employees.	Shared HR services should provide opportunity for improved Value for Money.						£3-400,000	
HFR Solutions (a Community Interest Company completely independent of Humberside Fire and Rescue Service)	Other (please add description in comments)	Other	Establishment of CIC which can provide revenue raising services to local businesses (Risk Assessment; Safety Training; Safety Interventions and Emergency Response) which are then used to fund additional services to the wider community. Example activities include provision of Industrial Firefighting teams to TATA Steel and Humberside Airport and Working at Heights training; additional community benefits include Rope Rescue Training for Firefighters, and Fire Training for local businesses/community groups	Established/On-Going	01/04/2012				Although HFR Solutions funds a number of community initiatives, the Company has also provide training and facilities to HFRS thus helping maintain and improve our Operational Capabilities (e.g. Working at Height Training)	HFR Solutions has returned over £500,000 to HFRS and funded community interest initiatives including K9 Fire Dogs (£5700); donated to NEL First Responder Vehicle £2000; Fire Setter Intervention programme (£1250); Community Defibrillators (£6800); Road Safety Bike (£250); Red Cross Emergency Vistim Support Unit (£31,584)							Fire/private collaboration
Control Refurbishment inc. housing Northern Data Centre on behalf of Lincolnshire, Norfolk and Hertfordshire FRSs	Fire-Fire	Estates/Central Building	A critical legacy of the FiReControl project closure was the lack of infrastructure investment within the Control Suite, which has in the main remained untouched since the opening of Service Headquarters in 1987. The Control Suite design no longer meets current and future requirements in terms of ergonomics, space utilisation and electrical/mechanical services design. Coupled with this is the agreement for HFRS to house the Northern Data Centre on behalf of the East Coast & Hertfordshire Control Room Consortium, which is to be sited within the Control Suite and requires stringent resilience features built in to its design	Completed	01/02/2013			£730,095	Improved resilience								
CFRMIS System Upgrade	Other Public Sector	ICT	To purchase two additional modules to the current CFMIS software system. A web module (Online Services) that adds the functionality to allow partner organisations to directly enter data to a pre-configured web page, utilising a secure web login. The new data will automatically update into the existing CFMIS database and there is the ability to trigger workflows that will advise specific people or groups that data has been entered and an associated action is needed. The second is an enhancement to the currently used Fire setters module (Vulnerable Person Module). This enhanced module includes a full case management system that will allow for better, more robust storage and management of intelligence data.	Completed	07/10/2013			£32,965	Increased access to high risk and hard to reach vulnerable persons, thus improving service to community and reducing number of emergency calls								
East Coast Consortium (joint collaboration with Lincolnshire, Norfolk and Hertfordshire FRSs)	Fire-Fire	Front Line	Joint collaboration between Humberside, Lincolnshire, Norfolk and Hertfordshire FRSs to develop mutually compatible Control Rooms that are able to take over mobilising functions in any other partner FRS, thus adding resilience.	Established/On-Going	04/11/2011			£7,200,000	Provides additional resilience to all partner FRSs and remove need to have secondary back up systems in each service.		0	0	0	778,000	778,000	778,000	and each subsequent year. N.B. figures quoted are for full consortium, not just HFRS.

First Responder Scheme with YAS	Fire-Ambulance	Front Line	HFRS working with the Yorkshire Ambulance Service to provide a medical response capability for Immediate Emergency Care (suspected Heart Attack/Breathing Difficulties/Collapse) that will complement the existing provision and improve patient outcome.	Established/On-Going	01/04/2013			£20,000 was provided as a pump prime mechanism	£17,000 allocated for initial training costs, which have been non recoverable through the scheme, as per original agreement	The EFR scheme utilises local RDS staff to provide emergency care at life threatening incidents. This has been achieved within 8 minutes on 80% of occasions, providing an enhanced service in rural communities. This decreased intervention time reduces the long term impact on secondary care and greater confidence in the community.	0	0	0	0	0	0	0	This is a cost neutral provision for the Fire Authority, with the exception of the initial training costs, all costs are recovered from YAS.	
First Responder Scheme with EMAS	Fire-Ambulance	Front Line	Following successful project with YAS, HFRS extended scheme with East Midland Ambulance Service to further improve patient outcome across the Humberside area.	Established/On-Going	01/01/2015 (approx)					The EFR scheme utilises local RDS staff to provide emergency care at life threatening incidents. This has been achieved within 8 minutes on 80% of occasions, providing an enhanced service in rural communities. This decreased intervention time reduces the long term impact on secondary care and greater confidence in the community.	0	0	0	0	0	0	0	This is a cost neutral provision for the Fire Authority, with the exception of the initial training costs, all costs are recovered from EMAS.	
First Responder Scheme with LIVES (Voluntary Sector)	Other (please add description in comments)	Front Line	Collaboration to use HFRS trauma trained personnel to assist voluntary First Responder Scheme, either as responders and/or trainers	Established/On-Going	Over 10 years				Long standing local arrangement in Grimsby and North Lincolnshire area to train volunteers in Trauma Care to assist in providing a First Responder Service									Collaboration with LIVES (Lincolnshire Voluntary Emergency Service)	
Falls Response Team collaboration with YAS and CHCP/Hull 2020	Other (please add description in comments)	Front Line	New collaboration with CHCP and YAS to extend First Responder service provision to include Slips, Trips and Falls, and transport of patients to bespoke Health Centres	Established/On-Going	01/07/2015	3 Vehicles to be provided by EMAS			£94,000 initially (10 x Ff for 3 months) thereafter commissioned by CCG/Community Care Provider	Improved patient outcomes								Public/private collaboration with CCG,private sector health provider and Police (with HFRS delivering services on behalf of partners)	
Secondment of HFRS Station Manager into Hull Clinical Commissioning Group	Other Public Sector	Front Line	To identify and facilitate greater integration with Health Services and opportunities to improve efficiency in alignment with the wider Community Safety Agenda	Established/On-Going	01/03/2015			£25,000 (1 x SM wages divided to reflect split of responsibilities)		Joint working can improve patient outcomes and allow HFRS access to hard to reach and vulnerable service users								Fire/Health/Ambulance/private/police collaboration	
Vehicle Workshops collaboration with Humberside Police	Fire-Police	Fleet Services	Establishment of joint vehicle maintenance facilities	Completed	04/11/2013				£1,800,000		Greater value for money from shared facility								
Clinical Commissioning Group Collaboration	Other Public Sector	Other	Joint Build of integrated Health Centre including Fire Station with a view to using Station Gym Facilities and FRS personnel to assist patients with rehabilitation, recovery and to promote well being	Established/On-Going	01/03/2014	Old East Hull Fire Station is inefficient, high maintenance and overdue replacement.			£1,400,000 for HFRS component		New build will be considerably cheaper to heat and maintain. Reduced costs to wider community through improved health and well being of patients							Would have cost around £4m to replace station without joint venture.	
Police Volunteers	Fire-Police	Other	Humberside Police Volunteers shared for use as additional Fire related Community Safety resources	Established/On-Going	Jul-12					Improved community safety awareness(17,183 hours worked by volunteers during 2014-15)									
Joint Emergency Services Interoperability Programme (JESIP)	Other Public Sector	Front Line	Local collaboration between HFRS, Humberside Police, Ambulance Services and Coastguard Agency based on a National approach to develop a joint understanding at emergency incidents. National Programme is a collaboration between CFOA, ACPO and AACE	Established/On-Going	Oct-13					Improved, more effective and more efficient emergency response due to more coordinated approach								Fire/Police/Ambulance/Coastguard Agency collaboration	
Princes Trust	Other Public Sector	Other	Collaboration with Grimsby Institute the external funding partner for HFRS personnel to train and educate young people 16-25 years, through the Prince's Trust Team programme in Scunthorpe and Grimsby areas. The Team programme is a 12 week full time nationally accredited programme which seeks to engage, develop and progress young towards a positive destination.	Established/On-Going	01.09.2011	Partnership with the Grimsby Institute established in 2011 with the end of the current academic year 2014/2015 resulting the completion of 14 Team programmes.			Externally funded programme currently through the Grimsby Institute based on 15 learners per programme, formalised on academic year contract.	Externally funded dependent contractual agreement terms	Engages with vulnerable and socially marginalised young people in the local community. Develops the skills and qualification base of young people. Helps to improve outcomes for all young people seeking to move them towards a positive destination. Aligns to the 'Community Safety Inclusion Strategy' in key areas of Safety Education and working with vulnerable people							DWP Job Centre NELincs has recorded over 50% of young people who have participated on Team have moved onto employment since its commencement in 2011. External funding reduces associated costs towards the establishment	Fire/Private collaboration with Grimsby College

Joint FRS / Environmental Agency / Local Authority inspection of waste recycling and storage sites	Other Public Sector	Other	Collaboration with the Environment Agency and Local Authority Planning to undertake joint inspection of waste recycling and storage sites.	Established/On-Going	2014					Joined up working between relevant agencies to address current issues with sites of this nature. Early identification of hazards at the planning stage to reduce risk to the community, firefighters & the environment.	Reduced fire damage & financial impact to involved site with consequential reduction of business impact to surrounding premises. Mitigation of environmental impact & associated clean up costs - difficult to quantify financial savings								research required over subsequent years to measure the success of the collaboration benchmarked against actual & potential incidents over a defined period of time
Public engagement for the delivery of resilience personnel	Other (please add description in comments)	Front Line	Engagement with members of the public to deliver contingency emergency response provisions in the event of Industrial action and other staff shortage situations.	Established/On-Going	2013				Additional contingency arrangements to those using available internal resources that have no direct relationship to existing staff	Reduced annual overhead costs in comparison to outsourcing arrangements with alternative commercial providers								£200k	This is an estimated saving derived from indicative annual commercial contract circa £250k minus £50k related to costs for continuation training of resilience cadre personnel. Fire/Public Collaboration
Collaboration with Water Authorities	Other (please add description in comments)	Front Line	Collaboration with Water Authorities in the exchange of information to support flood preparedness and FRS tactical planning.	Established/On-Going	2014				Availability of drainage system information at the scene to assist FRS decision making in the movement of flood water to alleviate property damage.	Waiver of normal commercial charges of data-set where provided to other organisations - undisclosed by water authority									would need to contact provider to ascertain indicative data-set charges. Fire/Private collaboration
Humber Comah operators (Humber Chemical Focus & Humber Emergency Planning Service collaboration)	Other Public Sector	Training	Collaboration with Humber Comah operators to facilitate the mutual exchange of information, instruction & training.	Established/On-Going	2009				Liaison between Comah industry and blue light services to promote improved relationships and common understanding of incident command protocols.	Reduced financial business impact to Comah operators as a result of effective incident management procedures & subsequent shorter post incident recovery periods									research required over subsequent years to measure the success of the collaboration benchmarked against actual & potential incidents over a defined period of time
Emergency Planning College collaboration	Other Public Sector	Training	Collaboration with the Emergency Planning College and LRF partners on the delivery of multi-agency training for staff undertaking Strategic and Tactical Command roles	Established/On-Going	2010				Relationship building for staff at each command level plus improved understanding of local emergency response frameworks. Multi agency training and increased awareness.	Savings per delegate of outreach training versus attendance at Easingwold. Approx £500 per delegate per course.	£2k	£0k	£3.5k	£3.5k	£4.5k	£3k			Actual on-going savings are dependent on the number of delegates nominated for relevant training courses each year. Average savings circa £5k per annum
Regional provision of Bulk Foam concentrate stocks between Humberside, North Yorkshire, West Yorkshire and South Yorkshire FRS's	Fire-Fire	Front Line	Regional collaboration to ensure that sufficient shared bulk foam stocks are available for a large scale incident	Established/On-Going	2010				Removal of the need for each FRS to store large quantities of bulk foam.	Each FRS has access to over 30,000 litres of bulk foam whilst incurring only 8,000 litres purchase and storage costs	£75,000 saving to each FRS								
National Resilience (NRAT)	Other Public Sector	Front Line	National Resilience supply a number of assets to our Service, which we ensure 24/7 availability of. We maintain competencies of crews and the availability of trained personnel, whilst National Resilience ensure the assets are subject to a maintenance schedule.	Established/On-Going	2004		The relationship has developed over the period and has become an integral part of our capability, both locally and nationally.	£60-£80K (approx)	Improved capability, locally and Nationally.	Increased efficiency and effectiveness at flooding and chemical incidents, lessening impact on local community and businesses. Monetary savings difficult to quantify.									
Oxygen Safety Project collaboration with CHCP	Other (please add description in comments)	Front Line	Community Health workers monitor needs of persons in receipt of Oxygen as part of their Care Plan and refer to HFRS for Home Safety Visit as necessary						Improved access to vulnerable persons therefore reducing number of fire deaths and injuries										Public/Private/Fire collaboration
Community Defibrillators collaboration with YAS/EMAS	Fire-Ambulance	Front Line	Agreement with Ambulance Services for the provision and siting of defibrillators for Public Use at Fire Stations	Established/On-Going					Improved health outcomes for community from better access to immediate emergency intervention										
Heart Start Scheme with British Heart Foundation	Other (please add description in comments)	Front Line	HFRS personnel give Basic Life Support Training to members of the community	Established/On-Going					Improved health, well being and safety of local community										Fire-Charity collaboration
Seed Software Mobile Data Terminal development with Hull University	Other (please add description in comments)	Front Line	Seed Software is the University of Hull Computer Science Department's commercial software development centre. HFRS collaborate with the university in the development of our Mobile Data Terminal provision in Fire Appliances and may in future progress this through the internship of a Post Graduate student from the University to develop an Officer PDA	Established/On-Going					University Students gain exposure to Commercial work environment, HFRS gain access to cutting edge technology at a reduced cost										Fire/Private collaboration

Regional Project Group for Emergency Services Mobile Communications Programme	Other Public Sector	Front Line	Collaboration with Home Office/NPCC/CFOA/AACE project to carry out local/regional transition preparation, control room enabling, connection, vehicle modification, local configuration and associated works, together with coordination with East Coast Consortium partners	Established/On-Going						Improve effective local transition from Airwaves to new comms system								
Secondment of SM to collaborate with Hull University HIVE (Hull Immersive Visualisation Environment) and HFR Solutions	Other (please add description in comments)	Training	Development of Virtual reality Training for the Fire Service and wider Safety Industry. It is intended to save training costs and allow income generation.	Established/On-Going	01-Jul-15	approx. 75% of SM workload dedicated to project - i.e £35k				Successful collaboration will enhance reputation of HFRS and Hull Uni, allowing the university access to the best students, research opportunities, and funding. Loser working and future collaboration	HFRS will save on future training costs by having free access to VR training (which is cheaper than real environment training anyway). Development of commercial VR with HFR Solutions CIC will allow income generation either through sale of services or sale of licensed software. As a CIC this income can be used to support future community projects.							Fire/Private collaboration
CFOA	Other (please add description in comments)	Other	Working with other FRSs and Associated Partners to share best practice and jointly develop Ops Guidance, Fire Investigation Guidance and similar projects	Established/On-Going						Improved capability of HFRS personnel and wider FRS community								Fire/Private collaboration
North Lincs Health and Wellbeing Board	Other (please add description in comments)	Other	Active partner on Board and subgroups for the delivery of joint priorities	Established/On-Going						Improved health and wellbeing of local community								Fire/health collaboration
North East Lincs Strategic Advisory Board	Other (please add description in comments)	Other	Provide Lead for economic and safe development of North East Lincs area in collaboration with Local Authority/police and Private partners	Established/On-Going						Business safety built-in as part of development of region								Public/local Authority/Fire/Police/Private
Greenport Guiding Coalition	Other (please add description in comments)	Other	Economic regeneration collaboration through development of Greenport concept in the Hull and ER areas	Established/On-Going							Improved economic development of region							Public/local Authority/Fire/Police/Private
Tribune Trust (a registered charity established by the High Sheriffs of East Yorkshire, Lincolnshire and Chief Constable of Humberside Police)	Other (please add description in comments)	Other	Collaboration with Tribune charity to help reduce crime and anti-social behaviour in the area	Established/On-Going						HFRS assist in meeting mutual aims of safer communities								Charity/Fire/police/private
East Riding Health Chief Executive Partnership	Other (please add description in comments)	Other	Collaboration seeking to improve health in the East Riding through integrated working	Established/On-Going						Improved access to services for customers resulting in improved health and safety outcomes								Public/local Authority/Fire/Private
Yorkshire and Humber Operational Response Group (YHORG)	Fire-Fire	Front Line	Regional Ops Partnership with other FRSs	Established/On-Going						Shared experience and practice allows all partner FRSs to benefit from improvements								
Arson Task Force	Other (please add description in comments)	Front Line	Collaboration with stakeholders to reduce arson	Completed						Established as part of the Crime and Disorder Reduction Partnership between HFRS, Police Local Authorities and local community groups to raise the profile and response to incidents of suspected arson, investigate the causes, prevent reoccurrence and thus reduce crime and call out								Fire/Police/Local Authority/Private/Public
K9 Fire Investigations (an independent Community Interest Company)	Other (please add description in comments)	Front Line	Collaboration with K9 Fire Investigations (CIC) to assist identification of use of accelerants in suspected arson incidents through use of trained fire dogs	Established/On-Going						Use of Fire Dogs allows Fire Investigation officers to identify or eliminate the use of accelerants as a cause of fire development quickly and more cost effectively than collecting and waiting for laboratory analysis of samples (although this is still needed for 'positive' indications)	Higher detection rates may lead to reduced crime and wider financial benefits to the community							Fire/Private/Police
Multi Agency Public Protection Arrangements (MAPPA) Collaboration with Police, Probation Service, and Social Services	Other Public Sector	Front Line	Collaborations between partners to share information in the best interests of Public Protection	Established/On-Going					Shared information can prevent recidivist arsonists from reoffending, thus reducing fire calls and reducing the number of deaths and injuries									Fire/Police/Probation Service/Prison Service/Social Services
Multi Agency Risk Assessment Conferences (MARAC)	Other Public Sector	Front Line	Victim-focussed collaboration between partner agencies to share information on high risk cases of domestic violence and abuse	Established/On-Going					HFRS can ensure victims houses are as safe as possible from arson attacks by perpetrators of abuse, thus reducing the number of killed or injured in fires									Fire/Police, Social Services and Voluntary Sector collaboration

Humber Local Enterprise Partnership Single Conversation group	Other (please add description in comments)	Other	The Single Conversation group is a national pilot, bringing together statutory agencies, local planning authorities and the Humber LEP to ensure a smoother process for developing around the Humber Estuary	Established/On-Going	30/03/2015	Although Humber LEP started in June 2011, Single Conversation Group wasn't established until this year			Business safety built-in as part of development of region									
Local Resilience Forum	Other (please add description in comments)	Front Line	Collaboration between Civil Contingencies Act Cat 1 Responders to plan for emergencies, agree risk profiles, plan business continuity, make arrangements to warn and inform the public, support multi agency plans, carry out joint exercises including Cat 2 and COMAH operators.	Established/On-Going	01/11/2004	Duty to establish LRFs came under Civil Contingencies Act 2004 s.2			Improved and coordinated emergency response including improved coordinated recovery and improved business continuity capability									Fire/LA/Police/Ambulance/Health/Environment Agency/Local Businesses and Voluntary Services collaboration
Greater Lincolnshire LEP	Other (please add description in comments)	Other	Collaboration on 25 year Water Plan	Established/On-Going					Improved planning to prevent flood risk and improved response/recovery should flooding occur									
British Red Cross Responder Fire and Emergency Support Vehicles	Other (please add description in comments)	Front Line	Two shared responder vehicles (1 North and 1 South Bank of Humber) provided by Red Cross to support the welfare of persons affected by emergency incidents (crewed by HFRS personnel during the day and British Red Cross Personnel out of hours)	Established/On-Going		Long standing collaboration between British Red Cross Emergency Victim Support (over 10 years).			Improved service to community by ensuring safe handover of victims of emergency incidents from HFRS to support services									Fire/Charity collaboration
Collaboration with the Probation Service	Other Public Sector	Training	HFRS personnel deliver Fire and Consequence Training to suitable persons identified by Probation Services as ex-perpetrators of arson						Reduced instances of arson, thus reducing calls and numbers of killed or injured in fire									
Lifeline (a welfare monitoring service for vulnerable adults) with ERYC	Other (please add description in comments)	Front Line	Working with ERYC to retrofit linked in smoke alarms to Lifeline users and further promote Lifeline		23/10/2013				Improved protection of vulnerable persons									Fire/LA/Private collaboration
Annual 7 Lakes Rescue Day collaboration with Humberside Police, EMAS, S.YorksFRS, LincsFRS, NottsFRS, Helimed 29, VolkerRail, Network Rail, Coastguard Agency, International Rescue Corps and Sheffield Hallam University	Other (please add description in comments)	Front Line	Annual event organised to engage with public and deliver public safety information regarding Water, Road, Rail and Fire Safety. Also raises money for charity (30,000 attendees raising £50k)	Established/On-Going	01/01/2007	Annual event now in its 8th year	variable, depending on external sponsorship (£5-10k)		Improved public awareness of emergency service capabilities and improved community safety awareness	Also raises money for charity (30,000 attendees raising £50k)								
Ministry of Defence access to Barracks during periods of Industrial Action	Other Public Sector	Front Line	MoD collaboration allowing Fire Appliances and Officers Cars to be located at local TA Barracks during periods of Industrial Action	Established/On-Going	01/11/2013		zero cost		Allowing response from non-FRS premises avoids further exacerbating a sensitive political situation									Fire/MoD collaboration
NEL Safeguarding Adults Group	Other (please add description in comments)	Other	Agreement between Fire, Health, Police and Social Services to work collaboratively in the interests of safeguarding children in North East Lincs area		15/04/2015				Improved safety and protection of vulnerable adults, reducing number of fires and number killed or injured in fire									Fire/Health/Police/Social Services collaboration
NL Driver Awareness Programme - collaboration with Probation Service and Courts Service	Other Public Sector	Training	HFRS personnel deliver training to persons convicted of driving offences and referred either as a condition of probation (serious incidents) or as part of a general driver education programme	Established/On-Going	05/02/2014				Improved standard of driving thus reducing number of RTCs attended and reducing number killed or injured on the roads									
NL Safeguarding Children Board	Other (please add description in comments)	Other	Agreement between Fire, Health, Police and Social Services to work collaboratively in the interests of safeguarding children in North Lincs area	Established/On-Going	15/04/2015				Improved safety and protection of children									Fire/Health/Police/social Services collaboration
Regional Fire Investigation Collaboration	Fire-Fire	Front Line	Shared regional FI response between FRSs to coordinate availability of suitably qualified specialist personnel	Established/On-Going	01/09/2015				Shared FI Officers between regions improves resilience and reduces need for each service to have highest grade specialists. Greater exposure of fewer specialists increases experience, improves performance and therefore improves outcomes for the wider community.									
Regional Hazmat collaboration	Fire-Fire	Front Line	National agreement between FRSs to ensure that Detection, Identification and Monitoring (DIM) vehicle and associated qualified Hazmat personnel are available as a National Asset	Established/On-Going	01/09/2005				Shared Hazmat capability between regions improves resilience									
Bristows Helicopter collaboration	Other (please add description in comments)	Front Line	Collaboration with Bristows Group to provide Helicopter assistance for Marine Firefighting (replacing previous arrangement with RAF Leconfield Air Sea Rescue)	Established/On-Going	01/12/2013				Collaboration allows HFRS to provide non-statutory emergency service to off-shore vessels and energy industry									Fire/Coastguard/Private collaboration
Runtech Vehicle Sponsorship	Other (please add description in comments)	Other	Sponsored van with decals for use by HFRS Community Safety personnel	Completed	06/08/2013				Reduced cost of hire vehicle gives more efficient use of HFRS resources									Fire/Private collaboration
Hull Community Safety Partnership	Other (please add description in comments)	Other	Collaboration with Police, Ambulance, Health and Voluntary Sector to coordinate delivery of community safety activities in the Hull area	Established/On-Going	31/03/2015				Joined up approach benefits all partners and enhances service to the public: HFRS get referrals for Home Safety visits and make referrals to other agencies so that vulnerable persons can access services as appropriate									Fire/Health/Police and Voluntary Sector collaboration

Hull Safeguarding Adults Board/Domestic Sprinkler provision	Other (please add description in comments)	Other	Provision and installation of stand alone Domestic Sprinklers to identified high risk vulnerable adults.	Established/On-Going	31/03/2015				Improved safety and protection of vulnerable adults, reducing number of fires and number killed or injured in fire								Fire/Health/Police/Social Services collaboration
Cold Alarms collaboration with KC and Sprue	Other (please add description in comments)	Other	Provision and installation of cold alarms and smoke alarms for vulnerable persons	Established/On-Going					Improved safety and protection of vulnerable adults, reducing number of hypothermia victims in winter, and reducing number of fires and number killed or injured in fire all year round								Collaboration between Fire/Private (KC)/private (Sprue)
East riding Community Safety Partnership	Other (please add description in comments)	Front Line	Collaboration with Police, Ambulance, Health and Voluntary Sector to coordinate delivery of community safety activities in the East Riding	Established/On-Going	26/02/2015				Joined up approach benefits all partners and enhances service to the public: HFRS get referrals for Home Safety visits and make referrals to other agencies so that vulnerable persons can access services as appropriate								Fire/Police/Health/Voluntary Sector
ER Sensory Impairment Team	Local Authority	Front Line	Provision and installation of smoke alarms for persons with sensory impairments in the East Riding area	Established/On-Going	27/03/2014				Improved safety and protection of blind and/or deaf persons, reducing number of fires and number killed or injured in fire								
ERYC Safeguarding Adults Board	Other (please add description in comments)	Other	Agreement between Fire, Health, Police and Social Services to work collaboratively in the interests of safeguarding Adults in East Yorkshire area	Established/On-Going	24/02/2015				Improved safety and protection of vulnerable adults, reducing number of fires and number killed or injured in fire								Fire/Health/Police/Social Services collaboration
ERYC Safeguarding Children's Board	Other (please add description in comments)	Other	Agreement between Fire, Health, Police and Social Services to work collaboratively in the interests of safeguarding children in East Yorkshire area	Established/On-Going	18/05/2015				Improved safety and protection of children in the East Riding of Yorkshire area								Fire/Health/Police/Social Services collaboration
North Lincs Council Local Housing Authority Winter Hotspots	Local Authority	Other	Collaboration with local housing authority to promote 'winter hotspots campaign' whereby HFRS staff are trained to recognise fuel poverty related issues and offer advice or refer to local housing officers	Established/On-Going					Improved safety and protection of vulnerable adults, reducing number of hypothermia victims in winter.								
Climbing Wall and Community Classroom for use by local Youth Services, Voluntary Sector, Princes Trust, and Police Neighbourhood Watch Groups	Other (please add description in comments)	Other	Project funded by the Big Lottery to help improve health, wellbeing and safety outcomes for people in the Grimsby area	Established/On-Going	01/01/2014		£100,000		Improvement to health, wellbeing and safety outcomes for people in the Grimsby area								Fire/local Youth Services/Voluntary Sector/Princes Trust/Police Neighbourhood Watch Groups collaboration funded by the Big Lottery
Land Swap collaboration	Other Public Sector	Estates/Central Building	Collaboration with Hull City Council to swap current Hull Central Fire Station site with suitable derelict land for new build Fire Station	Established/On-Going	31/01/2015					Reduced heating and maintenance of new-build compared to old station
