Prudential Indicators

The Prudential Indicators of the Authority for 2013/14 were approved at the 15 March 2013 Fire Authority Meeting.

The statements below monitor the actual performance to 31 May 2013 against the approved indicators.

Indicator 1 - Estimated Capital Expenditure 2013/14

This table reflects the forecasted capital expenditure as recorded in Table 3 of this report.

	2012/13 Actual £m	2013/14 Estimate Original £m	2013/14 Estimate Revised £m	2014/15 Estimate £m	2015/16 Estimate £m
Total Capital expenditure	3.457	2.879	2.879	2.265	3.115

Indicator 2 – Estimated ratio of Capital Financing Costs to Net Revenue Stream

This indicator reflects the estimated proportion of the net budget which is required to meet capital financing costs.

	2012/13 Actual %	2013/14 Estimate Original %	2013/14 Estimate Revised %	2014/15 Estimate %	2015/16 Estimate %
Ratio of Capital Financing Costs to Net Revenue Stream	7.88	5.95	5.95	7.06	6.64

Indicator 3 – Estimated Capital Financing Requirement

This indicator measures the Authority's need to borrow for capital financing purposes.

	Actual 31/03/13 £m	31/03/14 Estimate Original £m	31/03/14 Estimate Revised £m	Estimate 31/03/15 £m	Estimate 31/03/16 £m
Capital Financing Requirement	17.720	24.698	24.698	23.902	24.687

Indicator 4 – Authorised Limit for External Debt

The Authorised Limit for External Debt reflects the Authority's projected long and short term borrowing requirements at any time together with any other long term liabilities it may have. It is based on a prudent (but not worst case) scenario, and contains sufficient head room over and above this level to allow for operational management, for example, usual cash flow movements. The indicator was set at £34.415 million for 2013/14.

As at the 31 May 2013, there has been no short term borrowing nor has there been any long term borrowing undertaken in respect of capital expenditure. The Authorised Limit has not been approached at any point in the year to date and is not forecast to be approached during the remainder of the financial year.

Indicator 5 – Operational Boundary for External Debt

The Operational Boundary for External Debt is based on the same elements as the Authorised Limit (Indicator 4 above), but reflects directly the Director of Finance/S.151 Officer's estimate of the likely, prudent but not the worst case scenario without the additional headroom included in the Authorised Limit. This indicator therefore equates to the maximum external debt projected by this estimate and was set at £26.415 million for 2013/14.

As with the Authorised Limit, borrowing in the year to date has not exceeded the boundary and is not expected to exceed the boundary for the remainder of the financial year.

Indicator 6 – Fixed and Variable Rate Interest Exposure

This indicator seeks to ensure that the Authority limits its exposure to the risk of interest rate changes by restricting the proportion of variable rate borrowing within total borrowings. The approved limits for 2013/14 do not require amendment.

	As at 31/05/13	2013/14	2014/15	2015/16
	%	%	%	%
Fixed Rate – Upper Limit	100	100	100	100
Fixed Rate – Lower Limit	75	75	75	75
Variable Rate – Upper Limit	25	25	25	25
Variable Rate – Lower Limit	-	-	-	-

Indicator 7 – Upper and Lower Limits for the Maturity Structure of Borrowings

This indicator also seeks to ensure the Authority controls its exposure to the risk of interest rate fluctuations by limiting the proportion of debt maturing in any single period. The maturity structure of external debt is within the current approved upper and lower limits.

	Upper Limit %	% As at 31/05/13	Lower Limit %
Under 12 Months	10	4.97	-
12 months and within 24 months	10	5.74	-
24 months and within 5 years	25	16.21	-
5 years and within 10 years	60	23.82	-
10 years and above	80	49.26	-

Indicator 8 – Upper Limit for the Maturity Structure of Investments

When the 2013/14 Prudential Indicators were established the Authority's cash flow strategy was that any investment of surplus funds would not exceed a period of more than 364 days duration. To date, effective cash flow management has duly reflected this strategy, and it is anticipated that any future investments in this financial year will also reflect this strategy.

Key Indicator of Prudence

Under the Prudential Code a key indicator of prudence is that "net external borrowing does not, except in the short term, exceed the total of the Capital Financing Requirement in the preceding year plus the estimates of additional Capital Financing Requirements for the current and the next two financial years". To date, this indicator has not been breached.
