Smoking Safely

Reducing the risk of fire in your home

Smoking materials can easily cause a fire in the home if they are not stored, used and disposed of correctly.

If you smoke...

- Keep matches and lighters out of reach of children.
- Never leave your cigarette unattended. A lit cigarette can easily fall, increasing the risk of fire.
- Always ensure that your cigarette is fully extinguished. A small amount of water in the bottom of your ashtray is a good idea.
- Do not empty your ashtray in your bin until the contents are cold.
- Do not smoke when you are tired or if you are in bed.
- If you would like support in stopping smoking please contact your local G.P.

Smoke alarms... Working smoke alarms save lives

- Fit a smoke alarm to the ceiling on every level of your home.
- Test it weekly. #TestitTuesday, #PressToTest

If you are woken by your smoke alarm – GET OUT, STAY OUT AND CALL 999
